## **Step up against violence NOW!**

---

Due to the current situation, more  
**people need to stay at home.**

This is proven to be a  
**risk factor for increased intimate partner  
violence.**

**We are all responsible:**

If you hear or suspect  
**someone being threatened or harmed**  
in your neighbourhood,  
**call the police or the helpline**  
close to you.
